Dear Secretary Sebelius,

Please realize that contraception is part preventive care for women, and access to wide-ranging contraceptive care is in the best interest of women's health, children, and our communities.

Please support cost-sharing for preventive care services like contraception.

As one of many public health professionals in the field of reproductive and sexual health, we will not accept anymore unnecessary and unreasonable delays in access to contraceptive care as preventative health services.

Thank you for your time.

Sincerely,

Rafael Rodríguez, MPH
